What is our memorandum of Understanding?

The memorandum of understanding is a cooperative understanding between two or more parties, documenting the details of the collaboration. This is not a legally binding document. Its purpose is to simply offer some guidelines to both Parties around what is expected and delivered in the ideal situation. JOBHOP has a unique expertise and experience in Employment/Financial Service Industries, Jobhop's platform simplifies the employment process. Jobhop connects the employee to the employer and supplies a simplified transaction and administration process. Jobhop's partnership program ensures percentages of earnings can be redirected to Partners/Organisation for its own purpose. Partners offer a great source of potential connection to workers and new communities. The partnership program encourages new business and allows a partner to create their own model. Partners in essence can determine their own growth and will be supported and encouraged to grow their own models.

1. PURPOSE & SCOPE. To encourage usership and promote Jobhop and its benefits to users. To develop and nurture relationships with partners while creating revenue for their entity. To create a community driven product that encourages everyone to "on board".
